business or quit Masonry.

THE sampling works will bring more spent here.

In three weeks the sampling works

THE murder of Cajeme, the Ysqui chief, captured, and whose capture was effected through treachery, was brutal. cowardly and cold-blooded in the extreme. But then that government is Pinal. By the means advocated a thounot noted for either humanity or a high sense of honor,-Sorocco Bulletin.

people throughout southern Pima and many a San Carlos wicking, but as they will undoubtedly stand forward blood is thicker than water, we prefer when the proper time comes, with men them as mourners in preference to our and money to end at once and for all time the murderous raids of the San Carlos Reds.

THE Yaqui Chief Cuca extradited on papers presumably issued by the civil authorities of Sonora, was sentenced to death by the military butcher Martinez, and two days after his arrival in Guaymas was taken up the Yaqui river and etrangled to death in the presence of his people.

Let all citizens having the good o the public schools at heart, carefully scrutinize the causes which influence the various applicants to present themselves for the office of trustee, and if there be a nigger in the fence or a relative to serve, cast your votes for someone else. Individual interests must be buried under the common 'good.

THE right end of the long threatened boom has struck the town at last. The sampling works are an assured fact; work on them was begun to-day and will be brought to town to one now.

We yield much of our space to-day to the opinion of Judge Barnes in the case especially, will be read with interest. & Franklin appeared, The United United States district attorney. The findings of the court were in accordance The opinion is well written.

THE school election which takes place Saturday next, is the most important of any election of its kind ever held here. Heretofore the trustees of the public school were elected annually, but under the new law there will hereafter be but one member to elect. Of the three to be chosen next Saturday, one will hold office for one year, one for two years, or under Caleme and was therefore parand one for three years. It therefore if no money in it for anyone.

> sand dollars per scalp can easily be own people. The latch-string of the Cirrers's contribution hangs on the outside, and will never be taken in so ong as the good work goes on,

Those interested in the sampling works may consider themselves fortunate in having so practicable and honorable s man as Mr. Charles R. Wores as its manager. He is thoroughly reliable and parties having ores for sale need have no fear of any swindling dodge being practiced upon them, such as common reports attributes to some of the sampling and reduction works at a distance. On the contrary they can be assured that they will receive the full value of their ores as assayed and sampled. Mr. Wores' standing as an honorable business man is not surpassed by that of any man. We say this to those unacquainted with him. Those acquainted with him will bear us out in the above statement.

THE GOOD OLD DAYS.

REMINISCENCES OF APPLE BUTTER MAKING AND "FLANNEL KICKING."

Two Copular Customs which Prevailed Among the Settlers Away Back-How the Apple Butter was Made-Fulling the Home Made Flannel.

"I have seen many newspaper accounts

recently of customs that prevailed among the settlers away back, all of them born of necessity. But there were two that prevailed in Coshocton, the county in which I was raised, in the great old state of Ohio, that seems to have been overlooked or probably entirely forgottem. One of them was apple butter boiling and the other was flannel kicking. Talk about the fun they had at apple cuttings, corn buskings, quiltings, etc., but for genuine uproarious fun dannel kicking knock them all out in one round. Every new house had its old one, which was left standing, generally in close proximity to same time as that of complainant, Hen-ry B. Stone, general manager of the which almost every thrifty farmer posgrave on which to hang heavy kettles and cotion was that neither turnoer nor sheel pots, was always in order and was used rails could be loaded in them and that when boiling the apple butter, a large they had to be hauled to leading points ropper kettle always being used for the the laxury of a large copper kettle, conse-Young the rounds every apple butter sea- yers consider it sound. I do not think suently one served a large neighborhood,

> BOILING APPLE BUTTERS apple butter-always two fellows with their best girls. It required constant stiring, which was usually done with board about 5 inches wide by shout 2 feet long, with holes bored through it and a handle about 4 feet long,

per couple were having a most delightal time off in one corner of the room, sere being no light except a dim, relig s one from the fire. Of course they rude gaze of any one.

linsey woodsey, easingts and linenhirts, pants and short tailed remainbout all made off the same piece of goods There were no long tailed summer coats f a boy or even a good sized toan caught the sent of his pants on a sollater in climbing a rail fence or on a nail he hung there.

webs, or pieces of 30 or 40 yards, and of Fulling mills were a thing almost unheard of in that country at that time, and some way must be devised to thicken up or full the finnel, and they them is no vivid us if it had occurred but a year ago.

A FLANNEL SICKING.

"The boys and girls of the neighbor-seed-which took in a range of several evening they were going to have a flannel kicking, and it needed no arging to gather in enough to make up a party. The fannel was placed in a loose pile in the middle of backs, to hold them in position. Of course the performers all faced toward the flannel. The boxs, with their provious rolled

was killed early in the engage ment and could possibly bear it-was then poured on the flamuel and then the fun commenced in dead earnest, every one kick-ing the pile of flannel for dear life-the screaming, and the scapends spirting up enjoyed a pinnic at the experse of the bar was a and out in reckless prodigality. When white man are now heading directly for the suds became absorbed and began to then a freshoutburst of kicking and spirt- from John H. Hise to the Surveyor tien-

The Decision of Judge Barnes. Tuesan, A. V., June 22, 1887.

Eo. Crypus: - The decision of Judge

Barnes in the San Rafael Grant case ommends itself to the good sense of purpose. But few families could afford the people whatever the lawyers may say, though I think disinterested lawthere is any disposition either on the By an over part of the courts or the people to delarge room. It took two couples to boil prive the owners of Mexican grants of anything they are fairly entitled to, but " the unmistakable public feeling is, that | the Grand satside of the limits of the grant as defined by the Surveyor General and the courts, the land is public land of the United States, and open to pre-emption the fellow and his bes girl could and homestead settlement. If this is true, easily. While they surred the as Judge Barnes holis, that only four square leagues were petitioned for, or appraised, or paid for, and the title papers seem to show that conclusively, and that these four square learnes are named places quite frequently, for the to be surveyed from a known point at couple at the handle could not endure which the four square leagues corner, hat kind of thing for any length of time, there would be little danger of any knowing what a high old time the other homestead or pre-imption settler go couple were having away off in the cor- ting upon the grant, while there are ner. They were being deprived of their eight equare leagues or more claimed by opportunities. This thing usually lasted the Camerons which are thus thrown all night, and as a rule the little party open to settlement. It is ramoted that were not interrupted by meddlers and Mr. Cameson intends to appeal the case. they had a blissful season free from the but if he does I do not believe he will succeed in upsetting the decision just "But the crowning glory, the bass fun, made, and the settler who goes upon the was the flannel kicking. As I have before | iand outside of the four lengues will stated, almost every old house had its stand nine chances out of ten to dome com, on which the women wove flannels out on top with a good home in a very I designable section of country, CITIERS.
